PROJECTS/CERTIFICATIONS

AI Automation Certificate *08/2026 - 09/2026*

University of Georgia: Center for Continuing Education

- Analyzed business processes to identify automation opportunities and created process maps in Miro to document current workflows and improvement areas.
- Designed and deployed an AI-powered workflow that reduced task completion time by 40%, integrated ChatGPT and Make.com, and scaled automation across multiple teams.

AI Powered Employee Onboarding Assistant *01/2026 - 03/2026*

University of Georgia: AI in Business & Society

- Designed an AI powered onboarding assistant for the quick service restaurant industry, evaluating business value, system architecture, and enterprise implementation strategy.
- Assessed prompting methodologies, data sources, and governance risks while developing mitigation and transparency recommendations for responsible deployment.

ERP Simulation Participant *03/2025 - 04/2025*

University of Georgia: Business Process Management

- Led end-to-end business operations in a month-long SAP S/4HANA ERP simulation, managing resource planning and cross-functional decision making.
- Analyzed KPIs to optimize operational performance and gain hands-on experience with enterprise process integration.

Mobile Application Design *08/2023 - 05/2024*

University of Georgia: Introduction to Information Systems

- Conducted market research and developed a business plan for a mobile application, applying Agile and Waterfall methodologies to guide product development.
- Designed UX wireframes and data models using MockFlow to develop a mobile application prototype and present a business proposal to mock investors.
